Theme: Innovation and Transformation to Embrace Change

A gathering of top notch scholars and quality professionals from many countries from around the world will meet in Vancouver to discuss customer satisfaction topics of quality and innovation applicable to all areas of business endeavors, including manufacturing, healthcare, government, and all other service-related businesses being the main theme of this year's congress.

Don't miss this rare opportunity to elevate profile and promote your products and services to the international gathering representing top management, quality managers, healthcare executives, government officials, and private sector business executives.
